

“BlueGuard”

A PROJECT REPORT

SUBMITTED BY

Patel Harsh (ET24MTCA044)

UNDER THE GUIDANCE OF

Prof. Zankhana Vaishnav

In fulfilment for the award of the degree

Of

Master of Computer Applications

At

Sarvajani College of Engineering and Technology, Surat.

Sarvajani University

May, 2026

Sarvajanik University
Sarvajanik College of Engineering & Technology, Surat.
Department of Computer Applications

Date:
02/05/2026

CERTIFICATE

This is to certify that the project entitled “**BlueGuard**” has been submitted by Patel Harsh (ET24MTCA044) towards the fulfillment of the degree of Master of Computer Applications (M.C.A) in (4th Semester) of Sarvajanik University, Surat during the academic year 2025-2026.

Prof. Zankhana Vaishnav

Dr. Gayatri Kapadia

SELF-DECLARATION

Title of the Project: BlueGuard - AI SOC Driven Platform

Enrollment No.	Student Name
ET24MTCA044	Patel Harsh

I hereby declare that the above-mentioned project report submitted by me has been prepared by me and is original in its content and has not been submitted anywhere else.

I confirm that the report is prepared solely for academic requirements and not for any other purpose. It is intended for academic evaluation and might not be used by anyone for any other purpose without prior permission.

ACKNOWLEDGMENT

The development and ongoing research for the project, "BlueGuard - AI-Driven SOC Platform," has been a rewarding journey of learning and technical discovery. This work has evolved significantly through the guidance and support of many individuals who have contributed their time and expertise.

First and foremost, I would like to express my deepest gratitude to my college mentor, **Prof. Zankhana Vaishnav**, for her continuous encouragement, technical insights, and valuable feedback during the various phases of this project. Her mentorship has been instrumental in refining the technical architecture and academic standards of this work.

I am also sincerely thankful to **Dr. Gayatri Kapadia, Head of the Department (HOD)**, for providing a conducive environment for innovation and for her constant support toward the progress of our academic projects.

I would like to extend my heartfelt thanks to my industry mentors, **Mr. Neel Zaveri and Mr. Mitul Vanasiwala**, for their professional guidance and for sharing their real-world experience in the field of cybersecurity. Their practical advice has been vital in understanding the complexities of a Security Operations Center (SOC) and ensuring that the BlueGuard logic aligns with industry-standard security principles.

Finally, I would like to thank my family and friends for their unwavering support and patience throughout this intensive development process. Their belief in my abilities has been a constant source of motivation as I continue to enhance this platform.

Yours Sincerely,

Patel Harsh (ET24MTCA044)

INDEX

SR.NO	PARTICULAR	PG.NO
1	Introduction	
	1.1 Existing System	
	1.2 Need for the New System	
	1.3 Objective of the New System	
	1.4 Problem Definition	
	1.5 Core Components	
	1.6 Project Profile	
	1.7 Assumptions and Constraints	
	1.8 Advantages and Limitations of the Proposed System	
2	Requirement Determination & Analysis	
	2.1 Requirement Determination	
	2.2 Targeted Users	
3	System Design
